LLKPM20

Planetary Mixers

The LLK planetary mixers provide premium design and performance at top value prices. These machines are extremely versatile and are widely used in schools, hotels, restaurants and hospitals.

All machines are supplied with 3 attachments: wire whisk, dough hook, and flat beater. This allows the machines to be used for mixing a wide variety of products including cream, mayonnaise, creamed potatoes and even small quantities of dough. The LLK planetary mixers are all fitted with emergency stop buttons for optimum safety of the user.

For many years, we've offered the 10, 20 and 30 litre mixers and they're now more popular than ever, but we've recently added two newer models to our range: the 10 and 20 litre mixers without the mincing attachment hub. Many outlets do no mincing on site at all and therefore do not need the hub. Paying extra for the hub is an unnecessary expense for many. The new economy mixers are the perfect solution for such sites; they're of the exact same specification and quality as the standard mixers, just without the mincer attachment hub on the front!

Fabulous 2 years parts and 1 year labour warranty
